But they say that, it runs on a low quantity of memory and CPU. (0) ESRI Shape Viewer Review by Kevin ESRI Shape Viewer is a great app. The only complaint is that it has a limit of 10 million reads/writes. However, once the limit is reached it locks up and won't open. (0) ESRI Shape Viewer Review by DigitalMBA It does work pretty well. I think that was the only thing I didn't like about it. The UI could use some work, but it did work pretty well. I liked the speed and it seemed to work fine. I like the idea of something that is very simple and runs quickly. (0) ESRI Shape Viewer Review by Karen Works fine. I just wish I could specify a limit to the reads/writes. You can probably get around that by using the file system (if you have it), but I would prefer to not have to do that. (0) ESRI Shape Viewer Review by Valella Galio It is good. (0) ESRI Shape Viewer Review by Mark It is a great app. I use it all the time. (0) ESRI Shape Viewer Review by randn SHP Viewer runs well. Loads shp files faster than the file browser and it has

### System Requirements For SHP Viewer:

\*8 GB RAM \*Windows 10 or higher \*NVIDIA GPU with 12 GB VRAM or higher \*Speaker and Headphones \*Emulation console included (for Windows version only) Link: Overview: Once a master of the traditional game genre, Nintendo pushed forward with the classic Zelda series, dropping the focus on the action-adventure and more towards the role-playing adventure. Much of this was in large part due to the addition of the Link's Awakening series
