
Dv Studio 3.1 E-se

on\$0.00.with a monthly bandwidth limit of 20,000,000 MB. [citation needed] Line. QuickTime Player. Apple DVD Player and Microsoft's Windows Media Player.Q: Angularjs Ionic 2 get evento click input type=date Tengo un select con un ion-option el cual se llena por ngfor {{ date }} al llenar el option me da a entender que el evento click es el que va recibir, pero no logro entender como puedo obtener un input para hacer click Por ejemplo quiero que el evento click sea enviado a una funcion con la fecha asi : console.log(new Date(input.date)) el codigo del select: me lanza la siguiente error A: El evento click no va a entrar al navegador para obtener la fecha de la pantalla, sino que va a obtener la fecha en el controlador, para eso debes de colocar un controlador para recibir la fecha del usuario. Si lo que quieres es recibir la fecha, puedes colocarlo como un evento en el input y con javascript obtener la fecha y convertirla a una fecha normal.
