Because EA has to buy the same amount of keys for themselves as they did for us. They bought all them for us even if they were already given away. Go ask them how many keys they bought for EA. As for your comment that EA has a lot of money, that is stupid. I didn't know you were an employee of EA. Otherwise you would know that the company has been in trouble for not only a long time but also has very poor financials. click here to add 0/2-0/2-0/2-0/2-0/2-0/2-0/2-0/2-0/2-0/2-0/2-0/2-0/2-0/2-0/2-0/2-0/2-0

In an evaluation of salt as a key pressure trait in Pacific salmon (*Oncorhynchus* spp.), this study first addresses the specific question of the importance of salt tolerance in *O. keta*, the evolutionary sister species of *O. kisutch* (henceforth referred to as kish). We found a reduction in the level of salt tolerance in the late generation of *O. keta* relative to that in *O. kisutch*, suggesting that selection has acted on the key parameter of salt tolerance for *O. keta* since the time that this species first diverged from *O. kisutch*. We then measured plasma osmolalities of both species under a range of salt concentrations and a range of salinities in which adults would be expected to ingest salt. To our knowledge, this is the first study in which physiological measurements have been made in two species of salmon that diverged at the time of speciation, providing a foundation for comparing salt tolerance in species that differ in life history and life history traits. The major finding was that plasma osmolalities of adult *O. keta* were dramatically higher at any given salinity than those of adult *O. kisutch*. Our data thus indicate that adults of the two species differ greatly in their capacity to cope with a range of salt concentrations and that salt tolerance is one of the key physiological traits that has diverged since the time of speciation.

I don't bother with liberal labels because whatever is left of the liberal label in this country, the people of the world are the real liberals by far, ignoring our reality never works. If my politics has occasionally caused distress to some, that has more to do with their limitations as human beings than any shortcomings of mine as a leftist. I'm a First World Problem.
