What's new in Elden Ring:

See you in the true lands between!!

I missed this last year. It will now be a part of the game. A post from Nexon regarding *Palladion*:

"We are happy to announce that the relaunch of Palladion is planned to start this September. This exciting role-playing game is an epic saga that will take players to the world of Garos, thousands of years into the future, and casts you into the role of one of the last of the Garos army heroes. Players will follow the story of several characters that begin their journey as common humans and are launched into the most critical and critical events of their lives. In order to survive in this world, they must leave their past behind and create new destinies and take a strong stance against the evil group that has emerged. To protect their homeland, they will plunge into the forest of Garos and fight the enemy, leader by leader, as a last hope for their destroyed world."

It's looking pretty solid. I'm looking forward to it. Will probably get it when I start the game (I'm likely to keep gaming through the summer or QA as I'll be mostly idle) but I look forward to trying it out for myself if I'm not sick into it. Good to get a look at this game.

OVERLORD MMORPG V2.1 FIXED

My original MMO patch, MMOG, was out for this game as an update. That post is pretty old (I think I was one of the few to report a problem), and one of the OMM2 devs came up with a fix for me.
