English language is not easy and everyone has their own method of learning them. That said, it's always good to find and use an app that not only helps you improve your English but that also provides you with useful information in the process. English2Cards is such an app and is available for both iOS and Android devices. It boasts a useful GUI, has a series of interesting features, including the option of recording your own voice in the application itself. It includes, in total, 14 sets of cards which cover a wide range of topics from Maths to Culture & Design. On the surface, it might not look like a huge app, but the English2Cards GUI can be controlled with a simple tap. It even has an inbuilt Sleep Timer that can help you stay focused during study sessions. You can even control the speed of both the audio and video to make the app more engaging. When you tap a card, an extended description can appear, which includes an abundance of useful information about the particular card. Determining the need for general

anesthesia in orthognathic surgery: a review of the literature. Meticulous preoperative planning and evaluation is imperative to successful general anesthesia during orthognathic surgery. The identification of risk factors and preoperative assessment of patient characteristics can be beneficial in determining the need for general anesthesia during these procedures. Four basic steps in preoperative assessment include considering patient history, physical examination, diagnostic radiology, and laboratory studies. This article provides an overview of the current literature regarding preoperative assessment of patients requiring general anesthesia for orthognathic surgery, including patient characteristics, risk factors, and preoperative evaluation.

Q: Aggregate running total with distinct grouped values I have been trying to figure out how to achieve this on a table as the below but have not had any luck. I need to have a running total of the number of votes a voting application has

A smart and fun solution for learning English.

(1945) RANDOLPH v. UNITED STATES. No. 183. Circuit Court of Appeals, Second Circuit. May 10, 1945. Writ of Certiorari Denied June 14, 1945. \*533 Edward R. Leach, of Brooklyn, N. Y., for appellant. Charles K. Rice, U. S. Atty., of New York City (Henry Landau and Seymour Glanzer, Asst. U. S. Attys., both of New York City, of counsel), for appellee. Before AUGUSTUS N. HAND, CHASE, and FRANK, Circuit Judges. Writ of Certiorari Denied June 14, 1945. See 65 S.Ct. 1566. CHASE, Circuit Judge. The appellant, John Randolph, was found guilty on an indictment which charged him with income tax evasion for the calendar years 1942 and 1943. He has appealed from the judgment of conviction and sentence entered thereon. The case was submitted to a jury, and on appeal the jury's verdict is res judicata. As to the year 1942, it was proved that from January 1, 1942 to March 31, 1942, defendant's income was \$16,342.50. He made an income tax return for 1942 in which his taxable net income was shown as

---

\$15,784.59. His net tax liability from his income was shown as \$2,844.31. The deficiency

### **What's New In English2Cards?**

- 40 languages supported.

Support for Android phones and tablets. iPad owners can purchase an app-only version of

---

English2Cards for the cost of \$9.99. The app is currently selling for \$0.99 on the App Store. I downloaded this app a few months ago after hearing about it a lot. I honestly did not think much of it at the time, but I decided to give it a try. Boy am I glad I did. This app is incredible. It's perfect for me because, I can listen to audio books while riding my bike to work or while cooking dinner. What makes this app different from others is the audiobook feature that allows you to choose different voices and accents and set the speed at which the text appears on the screen. Apart from listening to books, you can also create your own books and learn your own vocab words. Here are the 2 or 3 reasons why this app is perfect for me:

1. Accuracy: This app is great for learners who learn best through listening because the voices and audio quality are really good. I haven't used any other learning app that is this accurate!
2. Vocabulary: This app has tons of words with the option of adding them to your vocab wordlist. Which is something

---

not available in other apps. If you have a first-aid kit or a medical kit you can add any words you hear in that field to your vocab wordlist. 3. Learn anytime, anywhere: This app allows you to listen to books at anytime, anywhere you like to. Some other apps allow you to listen to the audio books as long as you have an Internet connection. This app allows you to listen offline. It works great in countries with no Internet access like my country
