The new animation suite re-writes the game engine to drive real-world Player 2 Player performances from a physical perspective, allowing match creators to establish an authentic sense of “on-the-ball” performance. We’re starting as a digital sports company, and that’s the way the company has always been. We will take the best technology that we can get, regardless of whether it is coming from a brand-new engine or not. Best FIFA ever Another editor at EA, Duncan Wilson, writes: With the launch of FIFA 21 on September 26, two of my colleagues suggested a FIFA we haven’t seen yet. For the fans of football, it’s a platform to
