"The game seems to be a mash of Guild Wars and Dark Souls while simultaneously being something completely unique and its own entity." - /r/Games - "Truly a fantastic game with a wonderful story and multiple routes to go down with a rich fantasy setting. It will be a game that you'll never forget." - /r/Games - "Tarnished specifically focuses on the time after the story has ended and the player must explore to understand the mysterious world and its lore." - GamingQ - "The character creation feels a little bit like they've barely begun to adapt the formula for modern gaming." - GameHut - "Overall Tarnished is a game that I like to say is almost everything I've been looking for in a single game." - GameZone - "Tarnished deserves your time because it offers up a fresh combination of gameplay, mechanics, and story that feels like something new and groundbreaking. It's really easy to recommend Tarnished." - HardcoreGaming101 - "If you're a fan of the Elder Scrolls and Dark Souls, Tarnished is for you." - Game Re-View - "Tarnished is a tense, atmospheric puzzle-platformer." - The Game Informers - "Tarnished is one of those games that you are completely engrossed with from the beginning, and it's an absolute blast, even if your skills are a little lacking. It's a wonderful experience in the genre, but what is most impressive is that this game manages to be deep, yet accessible. You can really leave your skills at the door, and that's what I love about it." - Metro - "Tarnished may look like any other RPG, but underneath it all you'll discover quite a bit of heart." - Game Revolution - " bff6bb2d33
