Sherlock Holmes is back and the game is in chapter one. This mission is a dose of science and of Sherlock. We want to "Experience" the detective, solve the crime and link and explain things to you. For your first 25% hour as a detective, we're giving you a brief lecture on the history of Sherlock Holmes and the universe he lives in. We'll explain a bit of the universe's creation and it's history. We'll discuss the human condition, and the need for Sherlock to battle his own nature to attain his goal. We'll talk about types of stars, the phases of the moon and the wonder that is the universe. And maybe, just maybe, we'll make you feel better about watching the River Adventure and the latest episodes of Sherlock. The second 25% hour of the quest is also completely new, but can be done through long gameplay. We give you a clear mission, you go on a mostly linear path, and you do it all with a life and death scenario. You're not just fighting for survival. You have to keep an eye on the timeline, you have to actually try to solve the case and you will. Chapter Two and Three are quests that can be selected at will, but for the quest giver bonus we'll give you a list of valid options. A Gilded Cage: The second chapter of our quest has you investigate a deadly fishmonger in London, attempting to solve the murders of his four former employees, and how one of them survived. Can you find a connection and perhaps, learn the secret of the fishmonger? The third chapter has you traveling to Edinburgh with the object to figure out the strange fate of a beautiful girl named May, who was kidnapped and murdered. Do you have a chance to find her? Is the culprit still alive? Can you find the answer? The Saints and Sinners Quest is presented by DLC1.txt, Savage Rise, and Chapter Two - A Gilded Cage. Features Key:

- [mod] I'm actually playing the main plot of the game (but I won't reveal it just yet!) The events have already started but I have some motivation outside of that.
- [mod] I'm playing the main hentai path if you want to keep on watching me getting my EP fucked.
- [mod] This might even be the first time I pick up the controller and do a proper Fallout mission or post-MWT quest and I'm keeping it to myself.
- [mod] Nothing is an actual easter egg (it all has a point) - I'm throwing a lot of shit at the wall to see what sticks so far.
