
Altium File Type Not Recognized

[Download](#)

, try the following: Click the Altium icon. Click on the Open/Save Documents icon on the main toolbar. Click on the Altium document type in the Open/Save Documents dialog box. Click OK. You can then save the file. I found the.altium file type and saved the file as *.ppm file type and worked. Q: Add an object to be serialized by serializeArray At the moment I am trying to get a serialized array of objects using the following jQuery:

```
var data =  
$.toJSON(JSON.stringify(w.results));
```

This is working great to get the following data string into my store: [{"id":"512","name":"MyName", "address":"","cat_level":"","parent_id":"","parent_name":"","user_id":"","position_id":"","position_name":"","created_at":"2015-02-07 16:31:33","updated_at":"2015-02-08 16:04:38","created_by_user_id":"","created_by_name":"","created_by_email":"","deleted_by_user_id":"","deleted_by_name":"","deleted_by_email":"","last_modified_by_user_id":"","last_modified_by_name":"","last_modified_by_email":"","child_ids":[]}, {"id":"511","name":"MyNa

Altium File Type Not Recognized

What you can do: 1. Check the document was not exported in an Altium® format by sending it to a member of the Altium® team. 2. Check that the proper file type was selected in the Altium Designer® file properties - see here. 3. Can you tell us a

little about what you are trying to do (what you expect, what you get, what do you see) and any software or hardware you are using?

Attachments: 1. I cannot open a PCB with altium. If I try to open with altium I get the message "altium cannot open the file. it is either not a valid file or an unsupported file type" on the PCB designer panel. I have a small board design in PCB Designer. altium keeps crashing and it looks like a memory error. I have ver 3.5.4 of the PCB Designer with a fieldbus gui. I am trying to open a file in PCB designer with Solidworks 2013. What

can I do? Thank you 2. PCB information: Designer: Altium Version: Designer 2020 R2 Device: Board: Gafisys SMC/FH-10-1.0 and a Desplib SMCS/FL-10-1.0 is an example of a Solidworks compatible.PCB file. You can open it directly in Solidworks.

3. The file itself is made by this software: Solidworks PDF 4. Overlay settings: Open

Coordinator

Probe
Location
5. The file

is: 5 6. Other Actions: 6 7. What do you think the problem could be? 7 Things I have checked: -- Altium settings -- The file extension is the same as those files I have in the Altium library. -- I have this file in the library and there is no problem opening it. -- I have checked again the extension of the file and it is the same. -- I have done a clean of the library and restart. -- I have tried to create the.PCB file directly with Altium. -- I have tried to open this file in Designer. --
