## Far Cry 3 Error Skidrow Dll =LINK= Download

I wanted to play Blood Dragon and was told that ubiorbitapi\_r2\_loader.dll was missing. I installed this and now it tells me that skidrow.dll is missing. Can I...  
hello, You have problems running your game with the DirectX package version: You have the latest versions of DirectX installed. There are several tips for solving this problem. Please check it: <https://support.microsoft.com/en-us/help/302485/how-to-install-directx-9-in-windows-10> If you are using an older version of DirectX (not 9.0c), you can simply install it over the latest version of DirectX (which is available for Windows 10). There are several ways to do this:
